PREMIUM PANELS

The PREMIUM Series features high-quality acoustic panels with a genuine wood surface. The polyester backing contains 99% Recycled post-consumer Polyester. PREMIUM-series panels can be installed in any room except wet rooms or other areas in contact with water. They are available in seven different colors and measure 22x605x2440 mm.

SOUND ABSORPTION

The long reverberation time in a room without any acoustic solutions can be reduced using various materials that are using various materials with high sound absorption coefficients. Use large surfaces such as walls and ceilings - both will reduce the reverberation time when installing materials with documented sound absorption properties such as acoustic panels.

WHY FIBROTECH'S ACOUSTIC PANELS REDUCE SOUND

The narrow wood strips are installed on a 9 mm polyester panel that does not reflect sound the way hard material would. The thick polyester backing absorbs sound and improves room acoustics by reducing reverberation time. Furthermore, density is high, and the polyester is well attached with several clamps to avoid any loose ends.

DB no.	Product and color	Dimensions	m ² /panel	Quantity per pallet	Weight per panel
2035570	PREMIUM acoustic panel Smoked Oak	22x605x2440 mm	1,46	40 pcs.	13,5 kg.
2035571	PREMIUM acoustic panel Grey Oak	22x605x2440 mm	1,46	40 pcs.	13,5 kg.
2035576	PREMIUM acoustic panel Oiled Oak	22x605x2440 mm	1,46	40 pcs.	13,5 kg.
2035577	PREMIUM acoustic panel Walnut	22x605x2440 mm	1,46	40 pcs.	13,5 kg.
2035578	PREMIUM acoustic panel Light Oak	22x605x2440 mm	1,46	40 pcs.	13,5 kg.
2035731	PREMIUM acoustic panel Ash	22x605x2440 mm	1,46	40 pcs.	13,5 kg.
2162519	PREMIUM acoustic panel Black Oak	22x605x2440 mm	1,46	40 pcs.	13,5 kg.

Certifications, fire classifications, and environmental documentation depend on the product variant and application. Relevant certificates and declarations of conformity are available upon request. Scan for updated version to download: <https://fibrotech.com/en/product-information/>
